

— grace arbor —

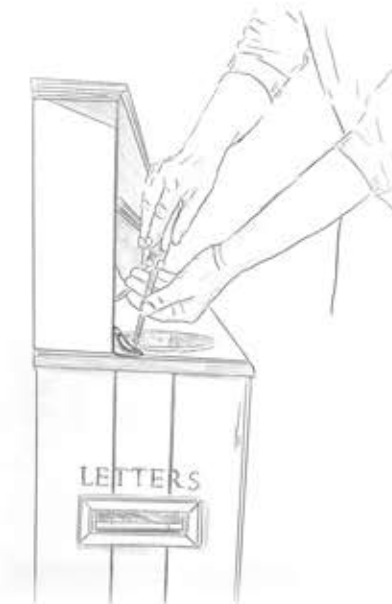

heirloom kitchen | assembly instructions:

- Tilt top shelf up and into place. Make sure metal brackets are lined up with holes.

- Using a Philips Head screw driver, tighten the 2 screws (included) through the metal corner brackets into the predrilled holes.

Note: You may need to loosen and tighten the existing upper screws to make everything line up swimmingly.

If you have a "climber," you can always mount your kitchen to the wall (bracket we recommend here).

Your kitchen is now ready for cooking imaginary feasts!
